

XM Radio has been a great help to me. I am in the military and I travel and move a lot. By using XM radio not only can I always find just the right music no matter where I am but now with the addition of local traffic and weather I can keep abreast of conditions when I travel to unfamiliar areas. I always know just what station to listen to. I can only hope the future holds the addition of more metro areas to the current XM line up.
Sincerly,

JAMES S. MOUDY
